

Design Requirements for Backoffice Mobile App

This mobile app is a **backoffice tool** for an managing Barber/Hairdressed scheduling app. It should be user-friendly, professional. The focus is on **efficiency**, **clarity**, and **intuitive navigation**.

General Design Guidelines

1. **Accessibility:** Include readable fonts, clear contrasts, and support for screen readers.
 2. **Feedback:** Provide visual cues (e.g., loading spinners, success messages, and error notifications).
-

Pages and Features
